My portfolio

CAREER OBJECTIVES

I am a self-thought programmer. I try to develop the front end of a web application using React.js. I am always ready to learn any technology or language. I always try to do my work professionally.

SKILLS

- **Expertise:** React.js, HTML5, CSS3, Bootstrap, JavaScript (ES6).
- **Comfortable:** Next Js, React Bootstrap, Node.js, Express.js, MongoDB.
- **Familiar:** Material UI, Tailwind CSS, Sass
- **Tools:** Git, VS Code, Chrome Dev Tool, Heroku, Netlify, Firebase.
- **Design Skills:** Adobe Photoshop, Figma.

PROJECTS

Royal-Cars | WEBSITE | GITHUB (CLIENT) | GITHUB (SERVER)

Features:

- This is a car related website. If you want, you can login here and see the car details.
- Users and Admin can sign up and log in to this website using email and password. Anyone cannot go to some pages without login, which is developed by React Router.
- User dashboard feature to watch all order history or can cancel their order.
- **Front-end Technology:** HTML5, CSS3, Bootstrap5, React.js, React Router, React Bootstrap, firebase,
- **Back-end Technology:** Node JS, Express JS, MongoDB

Tourx | WEBSITE | GITHUB (CLIENT) | GITHUB (SERVER)

Features:

- This is a tour related website. If you want, you can login here and see the car details.
- Users can log in to this website using Google. Anyone cannot go to some pages without login, which is developed by React Router.
- User will be able to see in my order what he has booked for the tour.
- **Front-end Technology:** HTML5, CSS3, Bootstrap5, React.js, React Router, React Bootstrap, firebase, **Back-end Technology:** Node JS, Express JS, MongoDB
